100 Make Up Tips EVERY Beauty Enthusiast Should Know with Master Resale Rights Utilize These Tips to Keep Yourself Looking Pretty & Stunning Forever Preview: Choose your makeup well. When you buy your makeup kit, make sure to choose something that is known for its quality. This way, you can be assured that you would be able to achieve the kind of effect that you are looking for. Aside from that, you can also ensure that you wont experience any kind of side effects on your skin with its use. Start with light makeup. To be on the safer side, it is best that for your first few tries of applying makeup on yourself, you should do it lightly. With that, you wont have redo everything, when it comes out not the way you want it to be. Aside from that, it would also be easy to correct, since you wont be dealing with heavy makeup. Makeup for sensitive skin. If you have sensitive skin, then it may take you some time to choose the makeup that wont get your skin irritated. Having allergic reactions from makeup is not something that you want to experience. To go around it though, you can always do a spot test prior to purchasing a product. This can be done by applying a small amount of the makeup on your skin. Wait 24 hours and see if you have any allergic reactions, before making up your mind. Using a concealer for a guy. Aside from making sure that the concealer you are using is of the right shade, it is also important to apply it at the right amount. If you dont want to look like you are indeed wearing makeup, then you should not apply too much of it. Aside from that, you should also make sure that you are applying it well so that you wont look like a pancake.
