Are You Sick And Tired Of Bad Email Addresses In Your Newsletter Or Mailing List? Email Commando is your solution! This software works great with ANY size list, big or small. The Commando will quickly scan a list of emails and weed out the ones that are no longer working for any reason. These reasons may include "user no longer exists", "domain doesn't exist" and many more. The software is very fast, can set up to 100 threads, and use proxies. Valid (as well as invalid) addresses are saved in a text file. SUPER BONUS: Order now and receive MASTER Resell Rights so you can sell Email Commando and keep 100 $$$ of the profits! You'll even get a copy of this sales page which you can easily customize!
