Finally, an easy way to have your visitors return to your websites over and over again... "Discover How You Can Make All Your Websites Interactive, Attract Tons Of Free Search Engine Traffic & Start Building A Huge \*Laser Targeted\* Email List... Instantly!" Finally A Hands Free Way To Let Your Websites Grow Everyday With Unique, Search Engine Friendly Content! Order Now & Get an Instant Upgrade to Master Resale Rights... Included For A Limited Time! Date: Thursday, August 16, 2007 From: Gary McCaffrey & TRACY YATES Dear Friend, How would you like a simple way to encourage your visitors to return to your websites over and over again? How about getting free unique content added to any site you want, all hands free? ... and what if you could do all this while at the same time building a laser targeted email list, again, without lifting a finger? Sounds interesting doesn't it? Well I've developed a remarkably simple system that allows you to do all this and more... Introducing The Brand New... 'Site Comments Pro' Site Comments Pro will instantly integrate with any html or php web page and allow your visitors to easily interact with your content and each other through discussion right on your webpage. Until now, this was really only possible if your site was already built using wordpress, or some complicated content management system. When I noticed how popular 'interactive' websites were becoming, I just new I had to find a simple way to add the same functionality to my old html, hand-built sites. That's when I decided to develop this script. And being an avid believer in the saying "The money is in the list", I added the ability to collect the names and emails of everyone who leaves a comment. Allowing you to build highly targeted Opt-In email lists of people who are interested in your topics, products and services. The script is extremely simple to use and can be added to any or all of your current or future html / php web pages. "Copy The Proven Techniques used By Some Of The Biggest Sites On The Web!" Some of the most successful websites around today use this very same technique and it makes their sites so 'sticky', people cant help but keep coming back... What is it these sites have in common? ...INTERACTIVITY!! Chances are you're a member of these sites, and have visited them often. Any idea why YouTube is so much more popular than Google Video (and ultimately why Google bought it over)? Because YouTube allows users to participate and interact with the content and each other, just as MySpace does. This user generated

content is what makes people come back to these sites over and over again, they just can't get enough of them! Now... with Site Comments Pro, you can finally add this same interactivity and 'stickiness' to any of your websites, and instantly start profiting and benefiting from free user generated content! Here are just some of the ways you will benefit when you start using 'Site Comments Pro' today! \* Search engines will keep returning to your site and will place you higher in the SERP's (search engine results page) because your sites are constantly being updated with fresh and unique content! \* Your visitors will be encouraged to come back to your site to read the comments, giving you another opportunity to grab their attention, sell them your products, or have them click on your ads. Basically, making you more money! \* You'll reduce the number of simple support request emails as your visitors can ask questions right on your website and anyone else can answer! \* Differentiate your private label article from the rest. Now the search engines won't punish you for duplicate content since your articles are unique and are being updated regularly. \* Allowing your visitors to contribute makes them feel part of a community and not just a random visitor unable to have their say. So they will value your site over your competitors. \* You can collect the names and email addresses of everyone who leaves a comment, so you can build a targeted email list that you can follow up with whenever you want! \* Use the script to collect testimonials after people have ordered your products. \* Add it to your thank you page and ask your customers to tell you the exact reason they ordered. With this information you will be able to update your salesletters, highlighting the most important benefits! Now watch your conversions skyrocket instantly! \* Interactive websites are the future of the internet, upgrade your sites now and set yourself apart from the competition.
