Don't know PHP from PDQ? No sweat, we said automatic. You do the simple install and the system does all this: You add a new product with 3 simple fields and click System Creates your secure PayPal buttons System Uploads your zip file System emails download link to your customer after successful purchase System limits the download link to one use You can easily reactivate the link for those who miss the download System uses PayPal IPN (Instant Payment Notification) and PHP to secure sales and deliveries System foils the Cyber Bandits System compiles your exportable customer List The most complicated things you do are to paste the button code to your sales page and upload the page No Programming or HTMLing of any kind needed. Are you going to continue to squander your precious time manually doing the tedious steps that DPMS does in a few clicks? I hope not, after all, the whole concept of computers is automation to free you to do creative profit building things with your precious time! Digital Product Management System Is a Point And Click program that frees up your time and enhances your Internet Marketing and profitability!"
