The story of how I was sitting one night making money on the internet and how I suddenly thought. ".if I can do this anybody could!" It was a fairly ordinary night, I had been sitting in front of my computer for about two hours and I realized that I had made about \$48. I was doing something that I enjoyed and did for fun it never crossed my mind that it could be done as a business. Which was a bit strange really as Ive been trying out business opportunities since I was 14 years old! It had just never occurred to me that this fun thing I was doing which provides me with a great part-time income could be written down and made into a simple cash generating system that virtually anyone can use. Then I had my Eureka! moment! It suddenly hit me like a 10 pound hammer if I can make an average of \$24 per hour sitting at my computer having fun, wouldnt other people want to do that too? Would you be interested in a part time income of \$24 per hour? Maybe youre a full time mom with a couple of hours to spare during the day, or perhaps youre just looking for a way to make a bit of extra money in the evenings after work, or youre between jobs and you need some income, or youre retired and looking for a new hobby that is also profitable, whatever your circumstances this could be right for you. There are no time restraints at all, you can do this whenever you choose 24 hours a day 365 days a year. Absolutely any time at all that suits you. By now you will probably be wondering what it is that I do to make \$24 per hour on average on the internet whenever I choose to do it. Ill be honest I considered not telling you. I was sure that the prospect of easily making a steady part-time income would tempt a lot of people to take action to find out but I know that there is a small minority that have a moral objection to this type of activity so in order not to offend anyone, Im going to be upfront and tell you exactly what it is that I do. I make \$24 per hour on average playing online poker. Now you can do the same or even better with this new guide. Now in case you are about to close down the shutters and switch off, please let me explain a couple of things first. Number one, first and foremost, I am not a poker player! In fact I have never played real poker in my life. Not a single hand! Secondly, Ive only been playing online for about three months. So to do this you dont need

to have any poker experience at all. I have developed a simple winning strategy that makes me steady profits almost every time I play. I say almost because there is the occasional time where I will make a small temporary loss but this will be more than recovered the next time I play. This is to be expected in any gambling situation it is impossible to win 100 of the time but if you follow this system there really is no gamble involved. You will win, its as simple as that. How often do I win? I have been steadily improving and refining my strategy until Im now at the point where I win 5 out of every 6 times I sit down, the other time I make a small loss and make a quick exit out. Put another way I am averaging an 83 success rate and the odd time that I do make a small loss is OK too, because I know that my losses are now out of the way for another 5 sessions! Poker on the internet can provide a fantastic income and there are many players who play professionally and make their living by doing just that. I must stress however that I cannot show you how to be a professional poker player. For one Im not a pro myself so I wouldnt presume to try and teach you something that I havent done myself and anyway to be a professional takes years of practice and thousands of games. But I can show you my system and teach you exactly how I do it. A word of caution though if youre thinking about jumping in and having a go yourself. The word is.DONT! It is possible to make money but you need to be shown how. If you go ahead and try it yourself without finding out how to win the easy way, you will in all probability lose. I will show you exactly which websites to go to (very important!), which game to play and how to play the game so that you will win. Its not difficult and even if youve never played cards before you will be able to quickly learn the system and start making money. So do you want to start making \$24 (or more) per hour part time? All you need to do is click the link below and you will have instant access to this simple but very profitable system. Click Here NOW - only \$14.95! Special Bonus!
