Most of us spend a lot of time and money on our holidays, yet rarely do we take the trouble to plan them properly. We almost invariably forget to do something beforehand or fail to pack something important. Often as not, we'll not get to see and do all the things that we wanted to, simply because of a lack of planning. Now I'd like to introduce you to Holiday Plus, a quick and easy system that will help you plan all your holidays and trips. Holiday Plus provides a selection of special forms, each specifically designed to help plan one aspect of your holidays and trips. With this simple software, you can generate as many copies of each form as you need, using the software again and again for every holiday and trip you take in the future. You can fill in the forms on your PC - or print them out to fill in by hand if you prefer. Either way, you have a quick and easy reference to help you plan and make sure nothing gets forgotten. Here's a list of the handy forms that you'll have access to with this great software tool. A travel budget form to help you plan the finances of each trip. A ready-made packing list form, providing a detailed list of common packing requirements as a starting point for you to quickly create a complete packing list, which you can use again and again for all your holidays and trips. A travel itinerary form and daily itinerary form, providing a complete framework for you to plan out your holidays in detail. An emergency information form to record information you might need in an emergency, so it's easily at hand when you need it most. A photo tracking form for recording all the photos you've taken during each trip. Holiday Plus is easy to use. Just select the form you want from a list, click a button and a new form will be saved to your PC and shown ready for you to print out or fill in. Planning your holidays doesn't get any easier than this! Now you can plan all aspects of your holidays with ease and make sure that you never forget your toothbrush again!
