Love was the Easiest Battle Colonel Rik Heron thought he and his lover, Major Vincent Greven, were finally free. They had survived the treachery of military commanders and retired to head a foundation dedicated to the well being of their kind. Their lives would be filled with love and satisfying work making the lives of Altered soldiers better. But fate is not that kind. The landscape of the Foundation was as treacherous as any battlefield. The demands of their new roles and intrigues of the staff nearly tear their relationship apart. And despite the purge of mad generals, someone is still trying to kill them. To make matters infinitely worse, Bobby Greven, Vincents brother, disappeared with his squad during his first mission out of training. Thus Rik and Vincent must become weapons once more.
