"Who Else Wants An Easy Way To Create Their Joomla Templates WITHOUT All The Hassle?" Here's a Complete Solution and you DON'T need any HTML or PHP experience. What Does It Do? Quite Simply it takes your graphic images and creates a complete template zip file ready to load into Joomla. It does what it says quickly and cleanly. Technically - It creates a 100 width 'autostretch' 3 column layout. The layout is 3 separate 100 tables 'stacked' vertically-the top table is for the header area, the middle table is for the Joomla left, center and right columns, and the bottom table is for the footer area. Additionally, the middle table will contain a 3 column 100 nested table. In addition we create the valid XML file and CSS descriptors all ready to run. What comes with the package? You receive the following: Complete Windows Application "How to" Movie Documentation Package
