News Flash: New Software Script That Will Change The Way You Do Business Online. Get Ready Because Your About To..... Discover How A New Powerful Software Helps 19-Year Old Marketer Boost His Product Sales By Over 400 Literally Overnight, And He Solemnly Swears (Under Oath) That His Cool Little Tool WILL Help YOU Do The Same" Dear Friend, You're about to discover how using a little software script will help you to boost your sales by 400 or more almost instantly! I dont care if you have a product that is not selling well, or if you have a product that is making thousands of dollars a day. This easy-to-install script will help you make more sales online... period. I am so confident that my script will help you to boost sales, that i'm going out of my way to say: "My script will help increase sales by 400 more or its free!". Not too many marketers make promises such as this so you know that this is the real thing. "I Dont Care Who You Are My Software Will Increase Your Profits!" That's right, I said it. Whether you are Guru or not, I WILL help you make more money. Here's how: The biggest problem I use to have with any of my products was the conversion rate and actually getting my prospects to buy from me. Recently I found out that Im not the only person who has this problem and I have also discovered a new method that will boost your sales by 400 or more. This is a simple method but extremely effective. People have been using this system for quite a while but the sad part is that they really dont want you to know. So What Is This Secret Script All About? It consists of developing a coupon box that gives your prospects a huge discount on anything you're selling. Before a prospect goes to a specified page they are given a coupon code to enter down by the order button in the coupon box. Once the coupon is entered then they are instantly redirected to a new page with another order button. The only difference now is that they will see a change in the price. This will more then likely increase the chances of someone taking action because every one loves to save money. Our customers are loving this brand new script and all of them are seeing wonderful results. In fact, you can ... Normally when a prospect visits your site for a particular product, if they think the price is too high they often leave the page and never come back again. What if you could capture that prospects attention before he/she even visits your page What if you add a huge discount for your prospects on top of the benefits that they will receive when purchasing your product?

How much do you think your conversion rate will increase? The more you offer discounts, the more your prospects are going to want to buy your products. The good thing about this is that it doesn't have to be for one product either "You Can Have The Same Customer Buying From You Over And Over Again As Long As You Keep Using This Simple Method!" Let's take a second and put ourselves in the prospect's position. Say you get an email from John Doe and he tells you about a wonderful site he just launched. In this site he is offering a big ticket home study course that maps out every single part of his online business step by step. The first thing that pops in your head while reading the email is that all home study courses are very expensive. But you are still interested because you know John Doe has a huge track record and he is known for creating valuable material. When you almost get done reading the email you see that John Doe is offering a discount to his subscribers at a very special price. This tells you that John Doe is actually going the extra mile to give you a discount that no one else has access to other than the people on his list. Doesn't that make you feel special? I know it does for me. You see, people love being treated special! Just think of when you get a coupon in the mail for your local grocery store. Even though you might have seen a certain item the week before, you didn't buy it because it might have been a bit too expensive. Just imagine if that same item would have had a discount price on it or even anything that could have saved you money. Wouldn't you be more attracted to buying? Well that is exactly what my Script does to each and every one of your prospects. It makes them feel special and you almost instantly see an increase in your conversion. Introducing: Instant Sales Booster Instead Of Making Them Think Twice, They Just Go For It and Sales Start Coming In Like Hot Cakes! Finally, a brand new script that gives you the opportunity to increase your current conversion rates and see a huge boost in sales! Here Are 10 Amazing Benefits You Will Receive When Grabbing Your Copy Of Instant Sales Booster Today! You'll be able to create unlimited coupons for all your websites from one central location. Step By Step Videos that take you by the hand and show every thing you need to know in order to install the script properly. You will be able to add / delete / modify coupons from your admin panel any time you like. Receive emails every time one of your coupons are being used. As the admin you will be able to track where each of your visitors are coming from and how they got your coupon code. Set a certain amount of times each coupon can be used. Set expiry dates on coupons after which they will not be available for use any longer. Be able to preview each of your coupons and test them. You will be able to change the look and feel of the site simply using a sandwich-style header/footer with the graphics, CSS etc. of your

choice Plus So Much more! Standard Requirements: You must have a Cpanel/MySQL and (phpMyAdmin - 2.9.0.2) to be able to install the script. If you have access to cpanel these are most likely available already. I Have Put In Special Features So You Can Get The Most Out This Script! Here is a small sample: Setting Expiration Dates On Each Coupon: This feature allows you to input a specific date when coupons will expire. Have you heard of creating a sense of urgency? That's what this option creates each time you share the coupon code with your prospect. If your prospect knows that they only have a certain amount of time to benefit from the coupon they will more than likely decide to take advantage of your offer sooner so they don't miss out on anything. Limiting The Amount Of Coupons That Can Be Used: This feature is made specifically for testing in comparison with the Expiration feature. You can take half of your prospects and send them to a page where you have your coupon set to expire on a specified date. Then you can take the other half and send them to another page where you are limiting the amount of coupons that will be given out to see which one converts the best. Statistics Page: This allows you to view where all of your incoming traffic is coming from and also gives you the option to view: \* The date that a visitor visited your coupon \* Which IP address was used \* If the coupon was successfully used \* What coupon was used \* Selective date ranges You Have To Be Completely Out Of Your Mind If You Don't See How You Can Benefit From Instant Sales Booster. I Mean, who doesn't want to: 1. Convert more of your prospects into buyers. 2. Have a fully automated script taking care of business for you! 3. Increase your sales by 400 or more. 4.
