Prices Only - \$5 Making cash quickly and easily on the internet has just become even easier.... "Find Your Inbox Stuffed With Cash And Paying Subscribers By Creating And Launching Your Very Own Earth Shattering eBooks In Less Than 7 Days!" UNCOVERED: Secrets To Giving Info Hungry Internet Surfers What They Want While You Claim A Healthy Bank Balance Without Half A Lifetime Of Experience Or A Huge Budget! Learn How To Profit From Your Own In-Demand eBooks Leaving All Others Eating Your Dust! Dear Marketing Sensation of Tomorrow, Making money on the internet is easy when you know how. The sad but true part is that, many people have "NO CLUE" about how to make money fast on the internet....if at all! Many of us are falsely led to believe and that, (and I'm sure you've bumped into this common catch phrase) "if you join ABC program today!", all of your money troubles and the millions you've been dreaming about are going to magically appear on our doorstep when we wake up the next morning. Sorry to say this...but, "You've been bitterly lied to...and probably more than once!" The truth is far from it. If it looks too good to be true, it most certainly is. Know better than to fall for that again. We are led to believe that we can "become a millionaire overnight" by doing nothing at all but investing a decent size chunk of your hard earned cash and sipping a pina-colada on the shores of Tahiti. While it is true that money can be made quickly on the internet, more times than not, these deceiving "programs" return nothing more than an empty wallet, a sick sinking feeling and a thick lump left in your throat where your pride used to be, very hard to swallow. And Im sure you know that what Im supposed to say next is that this is not one of those websites that foolishly promises a schemes that are cleverly covered all lies and rip-offs and it isn't.... in case you're wondering. But thats not what Im going to say....If you're looking for a proven fast-track to on-line success, "The Fastest And Most Reliable Way To Internet Riches Are In Creating And Selling Little Digital Downloadable Files Commonly Known As eBooks!" Selling other people's products you have resell rights to is going to make you some money but the reality is, it will only take you so far. The sales will quickly dry up. That's why it's essential to get a product with your name on it that you can sell for any price you want as many times as you want. Nothing can take you so far in such

a short amount of time than your own info-product! Believe it or not: You can make some fast cash on the internet....that doesn't fizzle out! How would you like to start and continue to earn great money right from the comfort of your own home in as little as one week from now by creating and selling your very own info eBook product? If you didn't know it before, info-publishers are among the richest people in the world. You've probably noticed the waves of "high-quality-lower priced" \$5 - \$7 eBooks exploding onto the market and particularly the I.M. scene. This surge has opened the doors for internet marketers on any level. Have you been tearing your hair out in frustration trying to get this happening for you.... * Make a name for yourself as an expert in your niche * Multiply and grow your on-line presence * Build a targeted and responsive list of buyers * Make a "nothing to sneeze at" paycheck * And, see it all by the end of next week? Only a few short months ago, I was a bummed out "nobody". I can't say I have reached the "GURU" status yet. However, with a few original eBooks now under my belt, I've been stoked to see my online business and bank balance grow like I'd always wished! Just An Average Couple Of Days At The "Office" From A Couple Of My eBook Products... A Page Of More More Instant Effortless Cash Paid Straight To Me While I Was On A Date With My Wife On Valentine's Day! There it is, right in front of your eyes! There is more, however, there are more important things to let you know about than how much money I've made. Although it may not be considered "a fortune" when compared to the big gun marketers, it is about 10 times more than I saw come in the day before. I think it's quite impressive considering the small amount of effort that actually brought this cash my way. But what's more is...it's easily attainable for literally anyone! I just wanted to show you and give you some proof that there is money to be made on the internet. This money was easy come and it was ALL profit! SO easy in fact, that anybody with half a brain and an internet connection is able to pull off the same kind of results without breaking the bank or pulling his hair out from frustrating product creation. Sure....I would have preferred one of those "\$50,000 in 1 day" launches like some of the big gun marketers pull off, but what those guys forget to mention is that they have years and years of experience, expensive copywriters, an arsenal of affiliates and a HUGE budget for advertising! Here's how the "little guy" can make play the I.M. game like a "big shot".... "eBooks Are Paving The Way To \$10,000's For The Average Joe Marketer!" Q: Why is an eBook so good? Why not start selling some junk on eBay or have "Smilie" banners plastered all over my website? A: Are you kidding? Listen to this.....Information sells like Hot Cakes! Heres why if you're not into selling info packed you're missing out big time and why eBooks "kick butt" over everything else on-line: *

NO INVESTMENT REQUIRED! You dont need any money to create an eBook, all you need is some time to invest into researching and writing about information people are willing to pay money for (anything from dog training information, weight loss techniques, tips on picking up beautiful women etc.) * INSTANT DELIVERY - NO SHIPPING HASSLES! You dont need to ship, pack and deliver your eBook to your customers once its finished, all you have to do is email your customers the download link and they will save your masterpiece to their computer all by themselves. Or better yet, out the instant download link on your thankyou page! * NO PRODUCTION COSTS! You can sell an unlimited amount of copies of your eBook without worrying about running out of inventory (Selling eBooks not like selling physical products, once you have one copy you can sell it a trillion times over) * PURE PROFIT! Since you are selling an electronic download and NOT a physical product, every sale you make can be 100 profit! It can be downloaded 1,000,000,000 times for all you care! (or as much as your bandwidth can handle:) * REACH EVERY HUNGRY READER IN THE WHOLE WORLD! Once your eBook is complete and up on the internet, you will have the potential to sell to the whole world! (unlike the real world where you are limited to the people who come into your store, the internet allows you to sell to who ever understands your language). You can even get it translated into any language of the world you like! Now that's POWERFUL! * AUTOMATED INCOME! Your whole business can be run on complete auto pilot! The advertising, payment and download process can easily be automated by your merchant (ie. Paypal) or shopping cart so all you would have to do is check up on it occasionally to see that everything is running smoothly. * YOU ARE THE CREATOR IN CONTROL! Writing an eBook is NOT like writing a novel: an eBook can be anywhere from 10 pages to how ever long you want to make it (as long as it contains valuable information your customers will be more than satisfied). * ESTABLISH YOURSELF AS AN EXPERT! Gain instant credibility in your niche. Writers are educated people and if you have something available in digital print that others want to know about, they'll happily open their wallets and pay you for it! Laying it out plainly for you, if you're not in the eBook business, you're wasting your time on something so much harder and probably losing money doing it. Make and sell your own eBooks, pocket some some easy money! "Ok, you've proven your point. I want in! But I don't even know where to begin to make an eBook?" If you've been assuming that eBook creation is only for the pros, you're terribly mistaken. I want to show you that it's easy and you DON'T need to be a genius or have a writing degree to do it and make cash with it. Heck! I'm no Einstein or Hemmingway! "I thought you'd never ask! Here's how easily YOU

can do it!" "Hey Stuart, Excellent job on "Instant Cash Payouts"!
