Freelancer Script

[DOWNLOAD HERE](#)

The freelance site is one our best web sites that allows you to set up your own freelancer portal just like scriptlanceor elance.com. The site is PHP/my SQL with an easy four step setup. The admin area features all aspects of user and site control from account moderation and reports to member, posting and status administration. In addition, our freelance site offer an escrow service for webmasters and programmers plus a feedback and certified members system. All scripts are included, you only need a hosting account with mySQL!
