Want to own your own video site like youtube.com? Now You Can! This is a YouTube-like script, a script to run your own video site. Requirements: You need PHP - MYSQL Your server must have ffmpeg and ffmpeg-php in order for the script to work. (Ask your webhost) You are responsible for your own hosting and bandwidth charges. Video sites are making tons of money. Metacafe recieved 17 millions venture capital for its site, just to have a site like this. Vsocial, Youtube, Videomotion and Thatvideosite make tons of money, and now you can too. Just run the site and put Google ads on it. Youll see the revenue coming in! Now even Yahoo and AOL launched YouTube-clone sites, because they make good money. It is estimated that in 2010 these sites will reach 17.2 billion dollars and will start replacing TVs... The site is fully customizable. You can easily change colors and styles. There is no need to know any PHP to make a beautiful, eye-catching website. You will even be able to add your own copyright information to the site to make it all your own. Dont make the wrong decision! Video sites are the FUTURE! And this is your chance to become a part of it!
