

E-z Download Page Protector

[DOWNLOAD HERE](#)

The E-Z Download Link Protector works by hiding the actual URL to your Download file. Now that your buyer has purchased and arrived at your Thank-you Page, you present them with a Download Link. Well, you dont want them to be able to pass on this link either. The Download Link Protector checks to see if access to the download.php or download.htm file was made from your Thank-you page and not through direct URL access, as it would be if someone thought they could pass out the download link. If the download link script is accessed from your Thank-you page, the script then automatically redirects to your actual download file. Otherwise, it redirects to your expired.htm page.
