The subconscious then follows these commands to produce POWERFUL and EXCITING change - quicker than anything you've ever seen before. Amazing Speed Reading Improve Your Reading Rate Running Time: 1 Hour 0 Minutes Description: Speed reading is the act of quickly absorbing written information. The goal is to read quickly but still retain comprehension of the material. The rate at which people read material is not a constant and varies greatly depending on several factors. Some material, such as school work or manuals, may require more contemplation and fewer distractions in order to process and still understand what is being conveyed. Being able to read ten books in a single day is useless if the reader is unable to retain comprehension of the material. This subliminal program attempts to improve and concentrate these skills. Love Your Physical Self Start Changing Your Life For The Better Running Time: 1 Hour 0 Minutes Description: Secretly disliking any part of your body can hold you back from so many of lifes adventures. Stop worrying NOW and begin the journey into freedom. Accept what you cannot change and move forward once and for all, with this amazing new subliminal recording. Our overall self-esteem is more closely related to the way we see ourselves than it is to the way others see us. How we see ourselves is important to our physical and emotional health. Our most fundamental sense of ourselves is

as a body; therefore, our body image is closely related to our sense of overall worthiness. Our self-destructive behaviors may begin with thoughts such as Im too heavy or My nose is too long. But such thoughts can be changed. We can exercise our imagination to begin to change the way we see ourselves. Because body images reside in the mind, our goal is to teach our minds to be our allies rather than our enemies. This powerful CD is set to do just that.
