PC DRIVERS DVD 400,000+ XP VISTA WIN 7 NEW FOR 2010 400.000 Universal Windows Drivers 3.4GB No more CDs for every hardware you have. Just install the DVD and update all the drivers on your PC. This collection contains software drivers for over 400,000 hardware components from brands such as Dell, HP, Compaq, IBM, Sony, Toshiba, Panasonic, as well as hardware component manufacturers Intel, 3Com, VIA, nVidia, ATI, SoundMAX, and many more! This is ideal for PC repair technicians and people who do not trust that other to fix their pc. Drivers are current as of January 19, 2010 for both x86-x64 systems Compressed to save space. Not compressed by me, came compressed from source. Unpacked there is over 3 gigs of drivers for Laptops and Desktops, XP and Vista. VERY EASY TO USE.. JUST PUT ON YOUR CD/DVD DRIVE AND LET THE YOUR DEVICE MANAGER SCAN WHICH DRIVER YOU NEED.
