Online Dating 3 is a very powerful top quality dating php script for webmasters who wish to run an online dating site. This script is powered by Php/MySQL, modern graphics and huge list of advanced features. Offer your dating site members two different account types to choose from, detailed member search capabilities, photo posting options and much more! Best of all, script is extremely simple to update and maintain through the integrated admin panel. Script also comes with integrated PayPal subscription payment system support! Script comes with 130 preloaded mp3 songs that members can use with dating profiles! Also header and footer files are there! There are two types of membership: - Free (can not add picture or send profiles to other members, nor can they use the message system to talk to other members) - Paid (can take advantage of all available script features). Script shows last 3 members who have added profiles that have pictures uploaded on home page! New member has to confirm email address before account is activated! Unique Feature! You decide how many new members get paid status for Free so you can build members list up fast! Requirements: - PHP 4+, MySQL 3+, Zlib module, cURL module Script Is Tested And Works With: - Linux/Apache servers; PHP 4 environment; Safari 3+ and Firefox 1.5.0.+ browsers
