Want an online business that earns you money while you sleep, go to the bathroom and stuff your face with tasty foods? Then Discover The Simple And Proven Step-By-Step Formula To Quickly Developing And Profiting From Your Very Own Hot And In Demand eBooks! All you have to do is follow the simple and proven steps outlined in this easy to follow guide, and quickly develop your own hot selling ebook that earns you money while you sleep! (and the best part is, you can do it more than once!) Dear Friend, Im sure you have seen the claims, the crazy headlines, the bank account screenshots and the promises that will make you rich over night. And Im sure you know that what Im supposed to say next is that this is not one of those websites, and quick rich schemes are all lies and rip-offs. But thats not what Im going to say Because believe it or not: you can get-rich-quick on the internet. There are ways for you to start making good money from the comfort of your own home just a few weeks from now by creating and selling your very own eBook. Why an eBook? Why not start selling something on eBay or sell electronics on your own website? Heres why: \* You dont need any money to create an eBook, all you need is some time to invest into researching and writing about information people are willing to pay money for (this can be dog training information, weight loss techniques, tips on picking up beautiful women etc.) \* You dont need to ship, pack and deliver your eBook to your customers once its finished, all you have to do is email your customers the download link and they will save your masterpiece to their computer all by themselves. \* You can sell an unlimited amount of copies of your eBook without worrying about running out of inventory (Selling eBooks not like selling physical products, once you have one copy you can sell it a trillion times over) \* Since you are selling an electronic download and NOT a physical product, every sale you make can be 100 profit! \* Once your eBook is complete and up on the internet, you will have the potential to sell to the whole world! (unlike the real world where you are limited to the people who come into your store, the internet allows you to sell to who ever understands your language) \* Your whole business can be run on auto pilot! The advertising, payment and download process can easily be automated by your shopping cart so all you would have to do is make sure everything is working properly

a few times a week. \* Writing an eBook is NOT like writing a novel: an eBook can be anywhere from 10 pages to how ever long you want to make it (as long as it contains valuable information your customers will be satisfied) Ok, so how exactly does one go about creating their own eBook and where do you even start!? Well, for starters not every eBook can make you money! Just because you have something to sell does not mean people will simply throw their money at you. You need to have something people want and are willing to pay for, which brings me to the number 1 rule in making money with eBooks \* You NEED to choose a hot topic and include valuable information people are willing to pay for in your eBook! This means that you cant simply write an eBook about gold fish tricks and expect to make a fortune. A better topic would be discount travel deals and where to find them. \* You must create a quality product your customers will be satisfied with! If you dont, most people will simply ask for a refund and you will be wasting time creating something nobody wants to buy. So, if you choose to create an eBook on Caribbean cooking, dont just list a bunch of recipes you found on the internet, include some photos of what the dishes should look like and offer some helpful advice. \* Try your best to make your product stand out from your competition! If you simply make another discount travel eBook you can make some money to pay a few of your bills, but if you make a discount travel eBook that offers something unique and new to your customers you can make a fortune! Are you ready to make a fortune? If you are, and you simply cant wait to have your very own online business earning you money while you sleep: you are about to learn everything you need to know to do just that in Ebook Money Maker Here is a small sample of the things you are about to learn in the eBook Money Maker guide: \* Exactly how to select a topic you can make a tone of money with! (this probably the most important step of the eBook development process if you want to make money, you must select a hot and profitable topic) \* How to get others to write parts of your eBook for you so you dont have to create the whole thing all by yourself. \* How to make your eBook entertaining and enjoyable to read for your customers (this is an important part of keeping the customers happy and NOT asking for refunds) \* Different ways to sell and profit from your eBook once its done (this is the part that makes you money!) \* Everything you need to include on your website (your website will play the role of the salesman in your eBook business venture) \* How to price your eBook (what will you charge for access to your new eBook? This part of the eBook Money Maker guide will help you decide) \* What you need to know about selling your eBook on eBay (this is a great choice if you want the marketing part of your business taken care of for you) \* What you need to know

about selling your eBook on Amazon(another great option) \* What you need to know about Affiliates (How you can get other people to sell your eBook for you in exchange for a commission) \* How you can find the perfect joint venture partner to help you in your eBook selling business. \* How to market your product 100 free of charge (the less money you spend, the more you get to keep!) The above list is just a small example of what you will learn in the eBook Money Maker guide! So, how much is this great guide worth?
