There isn't any published, I am going to make my competition very angry by releasing this information. This is the best guarded secret on the internet. Could you use an extra \$5,000 this month? How about an extra \$1,000 a day...every day? FOR THE REST OF YOUR LIFE! You don't need to be good with computers, or even have a computer once you purchase your investments. You will just collect checks in the mail every month, or if you decide to sell your investments you can receive large sums of cash daily!! What is Internet Real Estate? I have never heard this term before ... The only reason I used the term Internet Real Estate was to discourage those who do not have a true desire to succeed in a new market. I do not want my customers wasting their valuable time trying to learn something they will not have any interest in. Internet Real Estate is another name for a Domain Name (i.e. ebay.com, bytecash.com, comparediscount.com). Many people ask me, "how can someone "own" a

domain name, and how does that work?" Guess what--it is very simple, and in my ebook I explain step by step how this can be accomplished. But in a nutshell, it works a lot like physical real estate, in that you will own the rights to internet property. Why is this system so great? \* NO RISK! MONEY BACK GUARANTEE! \* I SHOW YOU STEP BY STEP HOW TO MAKE THIS WORK! \* No employees needed \* No advertising or marketing required \* You control how much money you want to make \* This system has been perfected and tested so you do not have to make the same mistakes I did when learning \* You can work from home \* Spend your day with family or relaxing \* You control your life, you set your own schedule \* Quit your stupid job
