Exploding Website Traffic Is Neither Hype Nor Myth: Secrets They Forgot To Actually Tell You!" With so many traffic guides on the market, why are such guides still in demand? Has nobody been able to come up with the ultimate guide to increase site traffic? Or did you find you just werent able to put what they tried to teach you in place? Perhaps there were missing pieces but youre not quite sure. Perhaps you did implement everything they taught you but the increase in traffic was nothing like they promised. You wonder what you did wrong, and decide it must be your lack of skill. Off you go, to buy another traffic guide only to find the same old information youve paid for before. Driving strong traffic to a site doesnt take a magic formula, or a Harvard business degree. Nor is it a mystery that only A-type gurus can master. Its just a powerful and perfectly balanced combination of multiple ingredients not the least is your own skill in performing niche research, and identifying your market. You Dont Need Another Keyword Research Tutorial After all, we all know how crucial that is to creating a paying customer base. By now, youre getting the hang of targeting your market (but youve got a feeling theres just a few things missing or you would have noticed more success by now.) Its not that you dont know how to find keywords, and use them: Its that your sites just dont have the visibility you thought theyd garner, at this stage of the game.
