"Discover How To Profit From Ebay's Recent Policy Change (Banning The Sale of Digital Products) With 5 Powerful Products!" There's a void to be filled on Ebay. And Those Who'd Act Fast Enough Would Have The Most to Gain! Plus at the end of this letter, Discover How You Can Profit Even More... Monday, June 8, 2009 Dear fellow Ebay seller, First, here's a bad news: Ebay has already banned the selling of downloadable digital products on its sites. The move hit many Ebay Sellers like a thunderbolt. And hundreds if not thousands lost their livelihood. Now the good news. You can exploit the void that the Auction Giant created to your BIG advantage and profit from the vacuum generated by the bloodbath. Got tons of digital products (ebooks, softwares, scripts, videos, audios, with plr or resale rights) just gathering digital dust in your hard drive? If so, you are sitting on a mother load of products that you could easily convert into cold hard cash! Here's how: Resell them as high perceived value physical products on CD or DVD - products of tangible nature GUARANTEED to build long lasting relationships between you and your customers. Remember, Ebay banned just the sale of digital products. If you burn your ebooks or softwares with resale rights on CD, you now have high-perceive value physical products that Ebay love. In a few minutes from now you can have the right tools and reading materials that would guide you and enable you to convert your resell rights products into appealing cd or dvd packages that would take your business to the next level. Presenting... The Ebay CD Seller's Tool Kit is a powerful set of tools that would enable you to create and run a potentially lucrative business from home selling cds on Ebay, website and even offline and using your existing inventory of resale rights products in your hard drive. Now let's see what what the Ebay CD Seller's Tool Kit is composed of. The Ebay CD Seller's Tool #1 The Secret To Quick CD Autoruns This eBook will show you every step you need to know to take something that look like: And make a small program you can put on your CDs or DVD that will launch when you insert it (often called an autorun) that looks will like : The only limit is your imagination and HTML skills! You will be able to start from scratch, taking any design or sale page that strike your fancy and create those autorun that will add a professional touch for your physical products. With Master Resale Rights The Ebay CD Seller's Tool #2 This package includes instructions Manual "Working with Inkscape" and Full-version Inkscape

Software. Inkscape is an Open Source vector graphics editor, with capabilities similar to Illustrator, CorelDraw, or Xara X, using the W3C standard Scalable Vector Graphics (SVG) file format. With Inkscape you would be able to easily create ready-to-print professional-looking physical dvd and cd inserts similar to the the ones below. Just import the flat image files and the screen captured sales letter portion that are usually included in the resale rights packages into the software to create your ready to print cd or dvd inserts. Note: The print quality produced would depend on the image resolution of the image file to be imported. The higher the image resolution the better the print quality of the CD and DVD inserts. Includes Step By Step Instructions covering such topics as how to create the front and back cover as well as the CD or DVD spine. With Master Resale Rights The Ebay CD Seller's Tool #3 650 Ebay Auction Templates pretty much say what this package is all about - over six hundred auction templates that will give your auction business that professional and distinct advantage. PLUS - A Special Bonus For You: If You Order Today You Also Get Full Resale Rights To This Product And Website So You Can Sell It Yourself And Keep Every Single Dollar You Make! CD products are making a lot of people a TON of money (you'll find two million-dollar case studies further down this page). AND - if you know how, they can be incredibly quick and easy to create - and - can be considerably more profitable for you than just offering downloadable products. Here's why: You get Increased customer loyalty - your customer receiving a product through the post and having it on their bookshelf creates more attachment to the product (and more interest in your other products - especially if they have a 'collector' mentality as many people do) than just another PDF sitting on their hard drive which is instantly forgotten about. You get extra marketing influence for free - not only do physical

products remind your customer about you and your sites weeks, months, even years after the initial purchase, but if it's ever sold (on eBay for example), the product keeps marketing for you and can turn that 'second hand' customer into a customer buying from you directly. theunselfishmarketer You can reach a MUCH larger market - not everyone is comfortable with purchasing downloads, or even buying online. With physical products you can deliver something tangible to your customer, and also market through other avenues not available with digital products, such as: drop shipping arrangements, wholesale arrangements, retail arrangements, catalogs... You can charge more - physical products have a higher perceived value as your customer is receiving something solid, something real, and this automatically gives it a higher perceived value than a download-only product ... which gives you the option of charging potentially considerably more. You can increase sales - with physical products, you can offer your visitors "try before you buy". In other words - they just pay shipping now, and then if they don't return it within 30 days (or 45 days ... or 60 days ... as you choose), they automatically get billed the full amount. This can greatly increase sales, and this is NOT something you can easily do (or really would want to attempt to do) with a digital only product. And creating your own unique CD products can be incredibly quick and easy - whether you're looking to make an extra \$200 a month on eBay, or you're looking to start a publishing Empire...
