The real estate site is a fully automated listing resource for Real Estate agents and Private Home owners that gives sellers an affordable online opportunity to sell properties. How it works The Real Estate site has two options for sellers. Real Estate agents can register as an agent which gives them extra features such as there own business card type website, banner advertising and multiple listing plans. Realtors can benefit by purchasing plans that will sell up to 10 listings at one time. Private sale (For sale by owner) clients have their own account plan that is tailored to their needs where they can only purchase one listing for their home. Private accounts do not have a personal website of banner advertising making the Private option affordable and practical to sell their home. With no extra fees other than hosting, this site is a serious money making website that can be used locally and nationally. This Package comes with 2 Different Scripts!
