Finally... A Foolproof Method That Will Automatically Boost All Your Google AdWords Conversion Ratios To The HIGHEST Possible Level! \* What if I told you there was a software program that would prevent viewers from immediately backing out of your landing page. \* What if I told you there was a software program that would turn your landing page into an exact match for whatever search the viewer happened to be conducting. Would you be interested? Great... because thats exactly what Conversion Equalizer does! With one convenient, easy-to-use program, you can create landing pages that will include whatever keyword was being searched for at the time the viewer clicked on your AdWords link. Now... Lets say viewer number 1 is conducting his search using the keyword phrase wholesale dog biscuit suppliers. And viewer number 2 is conducting her search using the keyword phrase dog biscuit recipes. They both click on your AdWords link (the same ad) and arrive on the same landing page. The only difference is, viewer number 1 sees only HIS keyword phrase throughout the content and viewer number 2 sees only HER keyword phrase. Instead of either one of them backing away, they each feel confident that theyve come to the right place. And of course, they have! But the best part of all? This is automatically accomplished through the magic of Conversion Equalizer... on the fly, based on the keyword that was used during the search.
