

Myvideoblog 2.7.1 100% Working

[DOWNLOAD HERE](#)

MyVideoBlog 2.7.1 100 working PHP MyVideoBlog is a plugin for Wordpress, a famous blog software. With this plugin is easy to create automated niche videoblogs. Your videoblog will be automatically updated everyday!! Its perfect to create niche videoblogs. MMA, Iphone, Fashion, Sports, Comedy, Celebrities, Porn, and much more! Use your imagination! The plugin grabs the embed code of the videos from several providers and automatically publish the post! You dont need to host ANY video in your own server, all videos will be published using the original embed code from the provider! You choose the feed source, the category, the keywords, the days of the week that you want to grab videos from this source... and the plugin makes the rest of the work!
