The awesome Web 2.0 Graphics Pack just got better... "Grab Over 1,500 2,000 Professional, Ready To Go Mini Site Graphics!" Looking for an easy way to spice up your site? Don't want to spend too much time messing around with graphics software? Then this "Web 2.0 Graphics Pack" is for you... I've put together a collection of over 2,000 brand new, high quality, professional mini site graphics that you can simply copy and paste into your websites and blogs. So you can give your sites an instant makeover, in minutes. No design skills required. No special software required. No big designer fees. Since these graphics are already pre-made and pre-formatted, it literally takes just a few minutes to stick them into your website. And they're really high quality and polished, so you WILL actually want to use them in your site. Take a look at these graphics for yourself... As you can see, these are really professional graphics. They were all designed by a real graphics pro who charges up to $100 an hour for custom work. This is really high quality stuff. So you can actually feel good about putting these graphics on your site. Here is a closer look at all of these graphics, giving you a break down of everything you get, along with full size samples... 400 Website Header Templates. 10 styles x 10 colors x 4 sizes. These are blank headers in JPEG format. You can open them up in any image editing program, add some text to them, and you have a nice header. All buttons come in transparent PNG format, so you can use them on any color background. Here are some samples... 70 Blank eCover Templates. 7 different eCover types (Box, CD, CD case, DVD, Ebook, Member Card, and Spiral Report). Each eCover template comes in10 different colors. Just like the blank headers, these are blank covers in JPEG format. You can open them up in any image editing program, add some text to

them, and you have a nice cover. Here are some samples.... 30 Guarantee signs. There are 10 different colors and 3 different sizes. Here are some samples.... 40 Website Footers. 2 styles x 2 sizes x 10 colors. The sizes are 780 pixels wide and 700 pixels wide. Come in JPEG format. Here are some samples.... As you can see from the breakdown above, that's quite a lot of graphics files. If you do the calculations, there are 2,240 total graphics pieces in this package. And these graphics cover pretty much everything you need for your website, from top to bottom. Plus they come in a variety of different sizes and colors, so you'll be able to find something to match the exact look of your site. You just stick them into your websites and you're good to go. (Headers and covers are an exception. You just have to add your own text.) It's much easier and more cost effective to use a package like this for some quick graphics touch ups, than to hire a designer for a "small" job. When ever you need some quick extra graphics for your site, just open up this package, and quickly go through the nicely organized collection. Fast and easy. It's one of those packages that you will use over and over again, and it will become one of your go-to resources. And it WILL save you money and time. Okay, so now you must be wondering... There are over 2,000 graphics in this packages. To hire a designer to create that much graphics for you would cost a fortune. But I want to make this package affordable to most people, so I came up with a fair price of........ $9 Only! But don't let the low price fool you. This is a top notch product that is eaily worth hundreds of dollars in saved designer fees. And I just might raise the price in the future. So if you're interested, grab this awesome package right now for the low price above. I also have a money back guarantee, just in case that price is not low enough...
