The Perfect Bid The successful Snabid, The Perfect Bid, Yottabid, Swoopo, Penny auction clone. Everything works here bid butlers, auto bids, registration, editing, adding bids, auction items etc. Full CMS with Improved Admin Area, Google Adsense and a FULL helpdesk system. This is a pay-per-bid script that has all features as swoopo.com. BID BUTLERS WORK,AUTO BIDS WORK,REGISTRATION WORKS,PLACING BIDS WORKS,ADMIN MENU WORKS. PLUS!! A full CMS system, Improved Admin Area, Google Adsense, a FULL helpdesk system!! Everything works and is exactly like on swoopo.com, but with more add-ons You will find several swoopo/telebid scripts over the internet: -Feisty script - the one with 9 templates using cake php and broken bid butlers and broken registration.(this script is definitely not worth for a website with more than 50 users). -techbids script(bid packs,bid butlers do not work) -Most other clones - encrypted with backdoors and callbacks is a powerful, scalable & fully-featured application that lets you create the ultimate profitable online penny auction website, just like Bid Ray, MadBid & others. Manage your entire online auction operation: create new auctions within seconds, set up auto bidders so your testing products sell for the price you want, add new pages using the built-in CMS (Content Management System), and much more!
