"You were wondering how I got here. How the story begins. Ask." "C Madison E. L. Leonine Ask and you shall receive in this fast paced story of a girl who takes an amazing chance only to find herself in unfamiliar territory. Most girls go far away from their homes to college, but most girls at least stay on the planet. Most girls do not have vampires as their school mascots. Most girls do not have a vampiric roommate nor do they go to class with that which goes bump in the night. Madison didn't need another reason not to be like "most girls" but she got it. If moving far away from everything she'd known and learning about a world and people she didn't even know existed wasn't enough, now Madison has to worry about her growing feelings for Joshua Ravenheart and the scandal a relationship with him would start. Mysteries and lies surround this less than reputable man, but she also senses in him something that tugs at her very soul. Would she be safe with him? Should she even try? Take this roller coaster ride with Madi, Josh, Poe, and all their friends as they prove that when all else fails your friends never will.
