What if you could automate all that? Imagine a tool that would: * Take in keywords you enter OR pull keywords from Google Sandbox or Overture. * Use those keywords to find relevant blogs on blogger.com. * Automatically post your comments to those blogs, including that all-important link back to your site. * Skyrocket your link popularity! Sound too good to be true? Well, Push Button Backlink Generator actually does just that! Think about it. Everybody knows blogging has surpassed e-zines and articles in terms of popularity. What if you could get thousands of blogs linking back to your site just by using Blog Link Generator to post your comments for you? Now Im not talking about junk comments- Im talking real personal comments just like the ones you now post.. What do you think that would do for your site traffic\$\$\$!!! So what do these automated messages look like? Well, they include the keyword you used. They look like this: I just came across your blog about **keyword** and wanted to drop you a note telling you how impressed I was with the information you have posted here. I also have a web site & blog about **keyword** so I know Im talking about when I say your site is top-notch! Keep up the great work, you are providing a great resource on the Internet here! The second **keyword** token in the text above will contain a link back to your web site! Blog Link Generator automatically replaced **keyword** with the list of keywords in the software that are revelant to your site! Is that powerful or what! Running down blogs and posting to them can eat your time It could take you

hours a day to find relevant blogs and post a comment with a link. Not to mention the carpal tunnel syndrome and eyestrain you'll get. I've been there. I used to spend, like, six hours a day getting keywords from Google Sandbox and Overture, then hunting down blogs with those keywords, and posting comments with a link back to my site. Then, I got an idea. I spent a week writing down how much time I spent doing all that blog stuff, then I looked at what my site was bringing in. Know what I was making per hour? \$10. That's right, \$10 an hour. I could've made more working fast-food. At that point, I realized there had to be a better way! I had to automate this process if I was ever going to make it pay off. My requirements: I needed something that would automatically: 1. Take my keywords or keywords from Google Sandbox or Overture. 2. Find blogs with those keywords. 3. Post a comment to those blogs that includes the keyword. 4. Include a link back to my site in the post. 5. Increase the heck out of my site traffic. So, in desperation, I called a software developer friend of mine. There had to be a better way. And there was! (And no, I will not divulge his name. I've got him working on a new project, and he's so good, he'd be stolen instantly.) After extensive research, he figured out what needed to happen and he went to work. He developed the tool. It finds relevant keywords, finds the blogs, and then posts a personal comment right from me! Each post contains links back to your site, so when the spiders find the posts they love so, they also find YOUR SITE! The result? Your site gets listed WAY UP HIGH in the search engines without you having to write a word of content! Push Button Backlink Generator is so easy to use, it's like having your very own money machine! You get: * Ability to plug in keywords or get them from Google Sandbox or Overture. * 24/7 searching of blogger for relevant blogs * Automated message posting that contains your keywords * Links back to your site get thousands of hits! * FAST results how fast? Some people have gotten into Google literally overnight! * FAST results After Push Button Backlink Generator makes your post it sends that person's blog to Pingomatic automatically to make sure your link is picked up in record time! * Huge traffic increases the spiders find you, and you know what happens next. It's all good! Visitors come, they click on the ads, Google AdSense sends you huge checks. * Turbocharge your ranking very soon you'll notice a distinct boost in rankings, which will boost ad revenue! How Much Money Could You Make From Having Thousands of Links Back to Your Site, Propelling You Up To The Top Of The Search Engine Listings? \$3,000 a month? \$5,000? \$10,000?
