Here's How You Can Instantly Gain an Almost Unstoppable Edge On Your Competition, Increase Your Sales Conversions, and Build Your Profit Margin to Massive Proportions with This Brand New Secret Tool ATTENTION: Order VERY 2.0 NOW and save big.....

Here's How You Can Instantly Gain an Almost Unstoppable Edge On Your Competition, Increase Your Sales Conversions, and Build Your Profit Margin to Massive Proportions with This Brand New Secret Tool

In Less Than 60 Minutes From Now You Can Be Creating Your Own Money-Making Software without Knowing a Single Thing About Writing Code or Without Having to Hire One of Those Expensive

Programmers. Dear Fellow Marketers, Can I ask you a quick question?... Would you take a pocket knife to do battle with a military trained sniper? Of course not... how absurd would that be? So why would you want to do battle in the internet marketing arena with inferior products? First, you're probably curious about what this is all about. Who wouldn't be? To make this as crystal clear to you as possible and to help you understand why this letter is so important I'd like to paraphrase a story written by James Wallace...

On October 28, 1955, shortly after 9:00 p.m., a baby boy was born. Unknown to any one at the time this tiny infant would soon have a profound effect on the modern world and significantly affect the way we do business, the way we communicate and the way we view life. Born into a family with a rich history in business, politics, and community service. His great-grandfather had been a state legislator and mayor, his grandfather was the vice president of a national bank, and his father was a prominent lawyer Early on in life, it was apparent that this exceptional boy inherited the relentless drive, vast intelligence, and competitive spirit that had helped his family rise to the top in their chosen professions. In elementary school he quickly surpassed all of his peer's abilities in nearly all subjects, especially math and science. His parents recognized his intelligence and decided to enroll him in a private school known for its intense academic environment. This decision had far reaching effects on the boys life. For it was here that this young boy was first introduced to computers. In the Spring of 1968, the private school decided that it

should acquaint the student body with the world of computers. Computers were still too large and costly for the school to purchase its own. Instead, the school had a fund raiser and bought computer time on a program sponsored by General Electric. A few thousand dollars were raised which the school figured would buy more than enough time to last into the next school year. However, the prestigious private school had drastically underestimated the appeal this machine would have for a hand full of young students. A few of the students immediately became inseparable from the computer. They would stay in the computer room all day and night, writing programs, reading computer literature and anything else they could to learn about computing. Soon this young genius and the others started running into problems with the faculty. Their homework was being turned in late (if at all), they were skipping classes to be in the computer room and to the astonishment of all, they had used up all of the schools computer time in just a few weeks. In the fall of 1968, Computer Center Corporation opened for business in Seattle. It was offering computing time at good rates, and one of the chief programmers working for the corporation had a child attending this same private school. A deal was struck between the school and the Computer Center Corporation that allowed the school to continue providing it's students with computer time. Soon, the now 13 year-old boy and his cohorts immediately began exploring the contents of this new machine. It was not long before the young hackers started causing problems. They caused the system to crash several times and broke the computers security system. They even altered the files that recorded the amount of computer time they were using. They were caught and the Computer Center Corporation banned them from the system for several weeks. Of course this didnt stop them. In fact, late in 1968, four of the school-mates formed the Lakeside Programmers Group. They were determined to find a way to apply their computer skills in the real world. The first opportunity to do this was a direct result of their mischievous activity with the school's computer time. The Computer Center Corporation's business was beginning to suffer due to the systems weak security and the frequency that it crashed. Impressed with the computer addicts' previous assaults on their computer, the Computer Center Corporation decided to hire the students to find bugs and expose weaknesses in the computer system. In return for the Lakeside Programming Group's help, the Computer Center Corporation would give them unlimited computer time. The boys could not refuse. One of the boys was quoted later as saying "It was when we got free time at C-cubed (Computer Center Corporation) that we really got into computers. I mean, then I became hardcore. It was day and night". Although the group was hired just to find bugs, they also read any and

every piece of computer related material that the day shift had left behind. The young hackers would even pick employees for new information. It was here that Bill Gates really began to develop the talents that would lead to the formation of Microsoft seven years later. There's no doubt that you are aware of the incredible fortune made by Bill Gates of Microsoft simply by creating software. Certainly he's not alone but Bill is one of the most well known success stories in the world... Perhaps right about now you're saying to yourself... Why in the hell should I care about Bill Gates' billions and what in the world does all this have to do with my business? Do you really expect that story to help me with my marketing success? Gimme a friggin' BREAK!... Before you go stomping off and cursing me out for wasting your time you must know this... Bill Gates made his fortune by making people's lives easier! Period. It's a proven fact that if you can come up with any thing that will make people's lives simpler and easier... it WILL sell! So, stick around, because I'm getting ready to give you some MAJOR Internet NEWS that can virtually catapult your success completely out of the galaxy! This is NOT the time to beat around the freaking bush. I can guarantee you that your competition (at least the ones you need to worry about) are NOT sitting on their pretty little laurels and picking their nose and wondering what they are going to do next to rake in the big profits you only WISH you could make! With This Mind-Blowing Marketing Tool You Could Be Saying Good-bye to Failure FOREVER! It's no secret to anyone that you can rake in incredible profits selling software. I'm talking millions... and perhaps even billions. Obviously not everyone is capable of creating windfalls of this magnitude but you get the picture. And, of course, not everyone has the technical skill and knowledge to create software. The development costs are staggeringly high... as in hundreds of thousands of dollars for some software applications. Not to mention the time it takes to write the program. Who has that kind of time, money, or knowledge? NOT MANY... Imagine, though, if you could just skip all the rigmarole that comes with research, development, programming, packaging, etc. - and just get down to making software! Would that be a riot? As utterly crazy as it sounds it's not impossible... in fact, it's down right easy with my new program called... "PHOENIX SOFTWARE CREATOR" "Imagine Being Able To AUTOMATICALLY Create Professional Looking Profit-Pulling Software Applications In Just 9 Incredibly Simple Steps... all in About 30-60 Minutes!" Whats new in version 2.0? Here's just some of the new features added: The user can now: - Add their own personalized graphics - Add their own affiliate links - Control the colors and text style - Create their software product in one setting or save and complete it later - Create their software using over 200 potential different HTML tags - Generate products with

different output capability (HTML, PHP, TEXT, Application) - Conditional statements - Custom fields - Build in Upsell feature - Build your own software affiliates Some useful features for you as a reseller: - New updated user guide - Ability for end users to include their affiliate link for your software (if you have an affiliate program) - Brander to rename Phoenix Software Creator to whatever your software name is. Brander also lets you add a new splash screen, change the user guide (including using an online guide), the software version number and also even the language What if you could have a professional software designer on retainer for you 24 hours a day 7 days a week that could create software applications whenever you wanted all for just a one time low payment? Imagine the money you could save or better yet imagine the potential profits you could bring in by creating and selling your own software! Sound like a pipe dream?... Well its not. And in a minute Ill show you exactly how you can get this amazing software generating tool for your own use. Do you have thousands of dollars just lying around to hire a programmer to write code for your next software idea? I would venture to say probably not. Do you have the time to learn programming language and write the code yourself? Maybe if you dont mind waiting ten years before youll be any good at it. Now imagine this Youve just come up with an idea for a software application that could significantly help solve a nagging problem in your niche. What do you do next? Do you just sit there wishing you could find someone to design the software for you, do you wallow in self pity because you know you are about to miss the profit boat again simply because you dont have the resources to make your idea a reality or do you open your software-generating program, put in the recipe and whip out that new software within the hour. Personally, I prefer the latter. Its already a proven fact that people not only love software, they will pay for it. Most folks are lazy and if you can provide a legitimate alternative to work theyll jump all over it. Now Theres An Affordable Way to Create Your Own Software Without Spending a Fortune! Why should only a select few have the chance to make their own software? Everyone should have a fair chance to create and sell their own software without going into eternal debt or maxing out their credit cards. Thanks to this exciting design in software technology, you can make practically all the software you want instantly at the push of a button. Youll never have to waste your time or money again. This powerful new software will generate as many applications as you want you are only limited by your imagination. New to Internet Marketing? That fine too! Because PHOENIX SOFTWARE CREATOR is designed so even the newest of marketers can use it without difficulty. There are no scripts or codes that you have to enter and figure out on your own. You wont spend hours on

complicated programming tasks or writing code. Just pop in a recipe and voila you're just a few clicks away from creating your very own software application any time you want! Plus, we've included an easy-to-understand quick start guide that will show you exactly how to get the most out of your software maker and maximize your income at the same time! You'll truly be amazed at all the things this one piece of software can do. Here Are Just A Few of the Virtually Countless Ways You Can Benefit From Using PHOENIX SOFTWARE CREATOR * Unlimited Software Applications at the Push of a Button If you hire a programmer to design your software you get one application period. Not only does it take a long time but all (or a good portion) of your budget goes into development costs before you even have a chance of seeing one dime in profit. Not so with PHOENIX SOFTWARE CREATOR. Your design costs are virtually zero (you pay for the software creator one time and you're done) and you can create unlimited applications all with just a few clicks of the mouse. * Save Time and Money Thanks to PHOENIX SOFTWARE CREATOR, you'll no longer have to spend a huge amount of your valuable time creating products. With the hours you'll save you can spend more time on the things you enjoy most. Plus, you'll have more time to focus on the marketing aspect of your business and not the product development phase. * Potentially Explode Your Sales and Income With the ability to create unlimited software applications there's truly no limit to what this can do to your sales and profit margin. Whether you create software to sell or software to give away you can create almost an unlimited stream of potential profit generating applications. * No Complicated Scripts or Programming Required You don't have to enter any complicated codes or be an expert programmer to use PHOENIX SOFTWARE CREATOR. This is truly a hassle free piece of software. Just pop in a recipe (we'll show you exactly how in the quick start guide), fill out the required information and with the click of your mouse you'll have a ready-to-go software application that is all yours. You've seen it before... people raking in fist-fulls of profit from all types of software... headline creators, sales letter generators, web page creators... the list goes on and on. The concept is really simple... Find a problem... make a software application that makes it easy to deal with... and you've got an instant recipe for success. You could be one idea away from becoming the next software tycoon! Who wouldn't get excited about that? Now you no longer have to fork out hundreds or possibly even thousands for an expensive programmer and wait weeks or even months to get your software to market... (assuming all the bugs have been detected and worked out) This software lets you get the same result but with your bank account still intact!... and your product ready to market in practically no time flat. Just fill in some

blanks, put in a "recipe" and answer some questions... then with a few clicks of the mouse you're done. Your software is ready to roll... Simple test it out and then hit the market! With "PHOENIX SOFTWARE CREATOR" you can have your very own software application completed and ready to be taking orders on it all in the same day... and that's if you're slow! * Instantly Create Profit-Pulling Software Applications For Practically ANY Market - No matter what your market is, you can now use "PHOENIX SOFTWARE CREATOR" to automatically create professional software, without spending thousands. * You WILL have your first Software created in only a few minutes. - All it takes is a few short minutes to fill in the blanks, load a recipe, click the mouse a few times and your software will be complete. * "PHOENIX SOFTWARE CREATOR" couldn't be easier to use. - This software is so simple to use. Even my 11 year old son was able to use it (now that's really saying something). * Build your email list to gargantuan proportions by creating and GIVING AWAY viral software applications! - "PHOENIX SOFTWARE CREATOR" is the perfect tool to create lead-generating viral software tools. This strategy can be used in almost unlimited markets and you can even get a tax deduction by giving away "promotional" items. * Free recipes included! - I'll also give you a starter pack of recipes to help guide you as you fill in the information required! "PHOENIX SOFTWARE CREATOR" is perfect for anyone who wants to sell software but doesn't have the time and money to invest in developers and programmers. To hire a good professional software developer and programmer can cost anything up to \$200,000 per product! So I could easily be charging \$997 for this software, and you'd be getting a tremendous bargain... but I'm not going to be charging anywhere near this much. And here's the reason why: I've been in your position and I know how hard it is. The sole reason I created this software was so that I could help people like you to create professional software applications quickly and easily and without having to spend hundreds or thousands of dollars. This is not some cheap piece of software. In fact... version 1.0 (that's the current version) cost \$14,195 to develop and the upgraded version (currently being developed) could be priced at around \$1,000 once it is released. So to offer this software for \$997 would be denying the reason for me creating it in the first place. I have therefore decided to offer it to you for the AMAZINGLY low price of just \$297 FOR A LIMITED TIME... YOU PAY JUST \$77.00 You couldn't even buy the bonus products included for this price. "PHOENIX SOFTWARE CREATOR" will not only save you time and money, it will also provide you with very nice, high converting software applications for practically ANY market you can imagine. You will be simply amazed by the results you get. Order PHOENIX SOFTWARE CREATOR and I'll Throw In

FOUR Excitingly Powerful SUCCESS FACTORS That Give You Virtually EVERY Tool You Will EVER Need to Start Your Very Own Highly Profitable INSTANT Software Empire! Even if you had only the software, PHOENIX SOFTWARE CREATOR is enough to get you started on your way to becoming a successful creator and seller of software. But then I thought... "why stop there?" Having your very own hot software application is a great start but what about a complete package that allows you to design a web page to sell your new creation. Now you can enjoy the benefits of my "Success Factors" and use them to create your entire software business from the ground up. Tags: plr
