

Alexa Bomber

[DOWNLOAD HERE](#)

with Alexa Bomber software you will be able to improve your website Alexa ranking. how does this work? This allows you to send virtual traffic via proxies to your website. Alexa will think you have traffic then it records that as a hit to your website. We all know that Alexa ranks you based on how much traffic comes to your website. Search engines take Alexa rank into consideration when they rank you. The higher your Alexa rank, the higher your search engine rank. This means real traffic will come. It also allows you to also set a referrer, so you can say the traffic came from a certain source if you choose to, you can put google for example. you can get fresh proxies by one click. it come with a list of 3000+ proxies list, you can use your own if you like.
