The Article Submitter Used Secretly by the most ELITE Article Marketers! Article Marketing is now Easier & FASTER than Ever! Some of the Features: + Submits to hundreds of article directories. No low-quality article directories though... ONLY the good, quality article directories! + Automatically creates and confirms article directory accounts FOR YOU! Yep, it even takes care of confirmation emails! + Automatic submission passes you the actual messages the directories show after the submission (in 70 of the cases). With other software you basically have no idea whether the submissions fail or work. + Automatically creates pen names (you can do this manually too) and provides an easy way to manage and use them for each article submission. + Allows you to "spin" your article(s) with a dictionary of 20,000+ related words! + Checks your article and provides keyword analysis and spell check BEFORE you submit the article! + Allows you to submit articles to your own blogger and wordpress blogs! As you can see, this is NOT "JUST" an article submitter! This is a complete article marketing tool with elite article marketers in mind! It's not a spamming tool though! It submits to the top article directories. It submits to most of the sites 100 automated, but for some you still need to be there and enter picture verifications (non-avoidable.) Here is a list of 300+ TOP directories (don't forget you can add your own blogs.
