If you've always wanted to get hold of powerful and exciting website graphics but didn't want to shell out \$497+ on a graphic designer then you're in for a treat!... Do Your Websites Look Like They've Been Built By A Newbie?... Are You Getting Newbie Results?... Now You Too Can Create Guru-Style Websites That Turn Visitors Into Buyers And Customers Into Affiliates Without Having A Bachelors Degree In Art And design! For The First Time Ever I'm Giving Away The RAW And Unflattened PSDs To 27 Of My Websites So You Produce Stunning Websites Of Your Own With A Simple Drag And Drop! RE: How to get the UNFLATTENED PSDs to personal work! The Graphics Guy. Unless you've been hiding under a rock or are completely new to the internet, you'll know that graphics help SELL a product. I don't care what you're selling words alone can only do so much, but graphics will help your visitors decide if they want to stay on your website and read your sales copy or leave there and then. Good graphics represent you, your business and what you're selling. If your site looks tacky, and looks like a home-improvement botched job, what impression does that leave about your product? It doesn't matter how good your sales copy is, how valuable your product actually is, or what other people are saying through your testimonials, or even if you're offering a LIFETIME guarantee. No one would care and your efforts would be completely wasted! Forget about one-time offers, upsells, downsells and cross-sells, tell-a-friend scripts, tweet me buttons, share this on Facebook buttons, affiliate programs or even offering high-ticket items, none of it will happen because you didn't make a good first and lasting impression. You did not impress them! Even if you wanted to collect sign-ups and follow up with your subscribers with promo emails for your products and affiliate recommendations, no one would want to sign-up because of the first impression you're leaving on your site! They'll remember you as that's the guy with that awful website trying to spam me and sell me junk... I think I'll unsubscribe... harsh but true. graphics is definitely a top priority when it comes to building an online presence. Which is why you're here on this page. Today I want to provide you with over 12 months worth of my own personal work to save you time, effort and money. You don't need a degree in art and design, you don't need to spend hours watching poor quality videos on YouTube, and you definitely won't need to fork out \$497+ on a graphic designer. What I'm offering is the RAW and

UNFLATTENED PSDs to 27 websites which I've built in the past to maintain and sustain a solid income online. With each website you'll receive the PSD template, eCovers, banners, buy now buttons and so much more. And because they're unflattened, you can drag and drop the graphic elements into your own website such as text, logos, people, icons, textures, colors and much more.
