Attention Affiliate Marketers: Make More Money From Your Blogs "Did You Know That You're Losing 30 or More in Affiliate Commissions? This New Software Stops That In It's Tracks... Immediately!" A Simple 2-Minute Auto-Installation Process Is All It Takes to Protect Your Commissions and Have More SEO Friendly and Managable Blogs. Dear Blogger and Affiliate Marketer, The fastest and easiest way to make money online is by selling others people's products and earning commissions or referral fees; this is called affiliate marketing. You can make a good income without anything other than an ability to send people to the product owner's website. But, one of the biggest problems affiliate marketers have is that when many people see an affiliate link to shy away from clicking it or they strip away the affiliate portion of the link. It has been estimated that 30 or more of your affiliate commissions are being stolen right out of your wallet! That can add up to hundreds or thousands of dollars each and every month... gone, never to be recovered. As your affiliate sales and commissions grow, so will the amount you are losing. How You Can Protect Your Affiliate Commissions and Increase Your Income Up To 40 or More! There are a few, rather unpleasant, ways that you can use to try to protect yourself affiliate income: * Use complicated custom CGI scripts, they are sometimes effective but can be very difficult to use and requires hiring technical experts. * Use a link shortening service, which hide the link with a weird looking Web address -- although sometimes it's only temporarily hidden -- and it is a highly inconvenient solution. Plus, when many people see a weird looking shortened link the are hesitant to click it. * Create a redirect page, this also works okay but it can be a partial solution and require some technical knowledge to setup. But... While a WordPress blog is the best vehicle to do advanced affiliate marketing they, unfortunately, make it even harder to protect affiliate links. But now you can turn your WordPress blog into the ultimate affiliate marketing system. How? Introducing WP Redirect Bot! WP Redirect Bot WP Redirect Bot is one of the simplest to use yet most useful plugins for Wordpress that's been released. It's almost like having your own personal URL redirection service and is perfect for shortening and hiding affiliate links! All without have to hack your theme or figuring out how to update the Unix .htaccess file... Simply install WP Redirect Bot as you would any plugin and you're ready to use it to redirect any post or page. To use it, just create a

blog post or page (it can be blank post or page) and enter the Web address of desired destination in the box labeled "Redirect to this URL?" and you're done. Then when someone clicks a redirected link it doesn't go to the link but goes to the Web page that you had entered when you created the post or page. No technical knowledge required, no inconvenient shorteners... just enter the Web address and you're done. You'll Be Making More Money and . . . Not only will you be pocketing lots of extra cash but WP Redirect Bot will benefit you in many other important ways: * You can redirect any blog post or page to any location on the Internet. * Don't break or lose your all-important back links -- you can easily change your permalinks without any loss. * Don't frustrate and lose visitors with "404 page not found" errors by redirecting pages that have common misspellings. * Improve the SEO of your blog posts and pages by making SEO-friendly web addresses. * Create nicer and easier to remember Web addresses -- these are also great for podcasts. * Easily move and rearrange your pages or even your entire blog. * Find your best performing links with the automatic link tracking statistics on every redirected link. Bigger bank account... Better SEO... Saving your back links... What more could you ask for? MRR package includes resell graphics, text sales pitch.
