This script is a powerful, scalable & fully-featured application that lets you create the ultimate profitable online penny auction website, just like TeleBid, Swoopo & Madbid. Manage your entire online auction operation: create new auctions within seconds, set up an auto bidder so your products sell for the price you want, add new pages using the built-in CMS (Content Management System), and much more! A completely automated system that was built with usability in mind. Features include the ability to duplicate multiple auctions, block bidders, peak-only bidding, engine to award free bids, and much more. You decide when your auctions finish. Price too low? Use the auto-extend feature. Not enough bidders? Use the auto-bidding feature. Making a profit has never been so easy. Powerful, feature-rich backend Send newsletters, emails, and more using the powerful CMS that comes as standard. Create & edit pages, news updates & blog posts seamlessly Monitor, engage and interact with your visitors in real-time using the powerful CMS (Content Management System). Update your website within seconds - no coding experience needed! Unlimited auctions, bids and more This awsome script allows you to customize any aspect of your auction brand. Take on Swoopo, Madbid, BidBoogie and more in style abut with a budget that doesnt break the bank! With a huge variety of features and options, at an extremely affordable price, perfectbid Clone is written in Object Oriented Programming in PHP and mySQL which is usually referred as LAMP (Linux, Apache, mySQL and PHP).
