Here's what you can do with this powerful software... You can set the headline to be shown at the top of your squeeze page You can enter the text for your squeeze page You can optionally turn the text into bullet points automatically, to emphasize the benefits of subscribing You can include an image or photo of any gift you are offering You can paste your signup form from your autoresponder with a single click You can enter a privacy note to assure visitors that their details are safe You can allow visitors to skip your squeeze page, so those who don't want to subscribe can still reach your sales page (this is optional) You can set the color for all the different text items at once - or set the color for each item individually, all using a simple color selector You can automatically include special code to avoid showing the squeeze page in future to visitors who have already subscribed Once you've entered your details, just click "Create Squeeze Page" and your complete, ready-to-use page is generated automatically. The software remembers all the text and colors you entered, so you can easily create more new squeeze pages in the future, in a matter of seconds. The squeeze pages are normal HTML pages, so you can edit them with any HTML editor if you want. This really is the ultimate power tool for creating your own complete list-building squeeze pages.
