If you're not interested in a software program that will catapult your business to the front of the pack, then you're on the wrong page. Why on earth has no-one thought of this before..... Competing against similar companies in such tight niches is hard work. But.. If you want to have the best reputation, the most efficient staff, the most customers, the greatest number of sales? Then you're on the right page. The Text To Speech Converter will turn any text into an audio file at the click of a button! The simple fact of the matter is people WILL NOT READ IF THEY CAN LISTEN! Whatever the message is, listening to it instead of having to read it will get it across much more successfully. Here's the proof! 'In 2005 alone 'podcasting' experienced nearly fivefold in audiences tuning in. It is even projected to reach between 20 Million and 80 Million by 2010!' Don't you want to profit from that increase? You know yourself that picturing something is much easier when you are listening to a description rather than reading it. Here are just a few things you can do with this impressive program: * Turn your ebooks, articles and reports into audio to listen to yourself or sell to customers as an interesting and effective method of learning. * Create audio teaching packs from new course manuals for your staff, who will appreciate and benefit from the more efficient method of developing new skills and techniques. * Produce podcasts for the current boom in iPod technology before other companies in your niche with the built-in Podcast Creator! This will give you first access to thousands of potential new customers! * Use the software to issue reports and memos to staff, new product descriptions to customers, provide professional updates for company meetings, and even news or promotional information to post on your website or business blog! The beauty of this software's products is its portability? information can be obtained wherever you are, whatever you're doing. It also makes use of the most effective method of message delivery and teaching: listening. Beat your competition!
