How would you like a simple way to encourage your visitors to return to your websites over and over again? How about getting free unique content added to any site you want, all hands free? ... and what if you could do all this while at the same time building a laser targeted email list, again, without lifting a finger? Sounds interesting doesn't it? Well I've developed a remarkably simple system that allows you to do all this and more... Introducing The Brand New... 'Site Comments Pro' Site Comments Pro will instantly integrate with any html or php web page and allow your visitors to easily interact with your content and each other through discussion right on your webpage. Until now, this was really only possible if your site was already built using wordpress, or some complicated content management system. When I noticed how popular 'interactive' websites were becoming, I just knew I had to find a simple way to add the same functionality to my old html, hand-built sites. That's when I decided to develop this script. And being an avid believer in the saying "The money is in the list", I added the ability to collect the names and emails of everyone who leaves a comment. Allowing you to build highly targeted Opt-In email lists of people who are interested in your topics, products and services. The script is extremely simple to use and can be added to any or all of your current or future html / php web pages. "Copy The Proven Techniques used By Some Of The Biggest Sites On The Web!" Some of the most successful websites around today use this very same technique and it makes their sites so 'sticky', people cant help but keep coming back...
