

Pay Lock Generator

[DOWNLOAD HERE](#)

Let's face it even in the cyber world there are thieves. People who go out of their way to find your work and steal it. They are ruthless and do not care how much money they have cost you. They will do whatever they can to find your products, whether this is an e-book or something else, and try to get them for free. These cyber thieves have the ability to go into your web site either take what they want for free or change the price to as little as one penny. You can stop the stealing now with a program called PayLock Generator. This is a desktop utility which allows you to create a pay button in an encrypted format. You no longer have to go into your Pay Pal account to set up a payment button for your web site. Now you can do it from the security of your desktop. This can help you eliminate digital theft. The idea of selling digital products on the Internet is not a new one. However it is a very lucrative one. A cyber thief can steal your products right from under your nose and you would never even know about it. By generating an encrypted Pay Pal button you can ensure that this does not happen to you. Paylock Generator is a very easy program to use. It generates the same buttons that you would have available when you log in to your Pay Pal account. All you have to add is some basic information. Once this is done you can encrypt the code and then make your button. By generating an encrypted button you keep your digital products safe. A thief cannot see the URL for your download page. This means he cannot go to your product page and steal them. It keeps your money where it's supposed to be, in your pocket. It is more common than you think to have something like this happen. Every day people are losing thousands of dollars to cyber thieves because they fail to encrypt their pages on a web site. The thief can go in and steal information off of the web site just like it was stealing candy from a baby. They can then take the products and redistribute them without your knowledge. So not only are you losing sales because these people are not buying from you, you are losing the sales that they generated off of your product. Using an encrypted pay button will keep people from stealing your work. Paylock Generator makes it easy to create a safe and secure pay button for your site. You no longer have to worry about losing sales, having your work stolen, or worse yet having it redistributed without your knowledge. It is one of the safest and easiest programs to use. It will stop a cyber thief in his tracks. By using a program like this you can protect yourself and rest

assured that the sales you should be getting will be generated. You will also know that your download page is safe and secure. No one will be able to see the URL of your download page unless you authorize it. In other words the only people who will have your work are the ones who paid for it.

Other Details Rights Offered: Master Resale Rights
