21 Pages Of Vintage Paper Dolls

DOWNLOAD HERE

21 pages of lovely vintage paper dolls, all cleaned up and ready for you to print onto paper or card and then cut out and enjoy (or even give them to the children if you can bear to!) Each doll and clothes have been scanned and then extensively cleaned and edited, but some of them are very old so please realise that I've done my best! I've resized all the pages to a consistent A4 so that they'll print on your home printer. All are in jpg format. Enjoy!
