

# One Time Offer Random Rotator With Mrr

[DOWNLOAD HERE](#)

You've purchased this product with Master Resell Rights and Private Label Rights. You are free to sell it and keep 100 of the profits. What is and Where is Your Prime Web Site Real Estate? If you answered your Sales Page [a.k.a. index page]... Then you could be leaving anything up to an astounding 94.2 of your potential income on the table. No, that's not hype or B.S. but proven statistics that can be worked out by anyone with a calculator. Let me give you just one simple example that will send shock waves down your spine. You have done a fantastic job on creating a killer Sales Page and it converts at say 5.8. In laymen terms, that means you are generating almost 6 sales for every 100 visitors to your web site. To most Internet Marketers they would give their eye tooth for stats like that, but more to the point... What are you doing to convert the other 94.2 of visitors that didn't purchase? And here is another crunch question for you to mull over... What are you doing to upsell the 5.8 of clients who have purchased? And even more to think about is... What are you doing about your web visitors that never actually get to your web page or site due to an error? The possible reasons for an error could be as: Simple as just mis-spelling a page name! You gave the wrong url link! The surfers internet connection is real slow and the page times out! You changed the layout of your site and the search engines still have that page indexed that you moved. There are many many more reasons for an error page to be displayed. How are you converting this enormous traffic? And if that's not enough to get you really thinking about... What is and Where is Your Prime Web Site Real Estate? Then let me start listing some of them for you! Entry Page Exit Page Order Page Order Confirmation Page - pre and post purchase Thank you Page after purchase Subscription Page for your Ezine, Newsletter, Membership etc. Subscription Thank you for subscribing page Subscription Thank you for validating or verification page Members Login Page Members Logout Page Your Index Page Your Blog(s) Your 301 Moved Permanently - Error Page 302 Moved Temporarily - Error Page 400 Bad Request - Error Page 401 Authorization Required - Error Page 403 Forbidden - Error Page 404 Not Found - Error Page 405 Method Not Allowed - Error Page 408 Request Timed Out - Error Page 415 Unsupported Media Type - Error Page 500 Internal Server Error - Error Page 501 Not Implemented - Error Page 502 Bad Gateway - Error Page 503 Service Unavailable -

Error Page 504 Gateway Timeout - Error Page 505 HTTP Version Not Supported - Error Page The point I am trying to get across to you is simply this... Every Web Page you ever create or haven't created needs to be treated as... Your Prime Web Site Real Estate! You need to know that all the above web pages are converting your traffic into either customers or subscribers. Now I know for a fact you simply will not sell to every visitor or indeed get them to subscribe to your newsletter or ezine. BUT... What if you had a simple system in place that dynamically generated web pages to suit whatever action your potential customer or server made? This system would have to be "100 on Auto Pilot". Set it and Forget it Technology. This sytem would also have to allow for updates or any changes to be shown immediately without having to FTP any of the changes made. As you probably have guessed by now, I am a great believer in Automation as I do have better things to do than continually update and change pages. Infact, you'd have to agree that it would be a lifesaver in time and money, if this system could do away with having multiple scripts and do the following all from one handy Admin Area. Be able to display and randomly rotate... news items quotations of the day new product announcements monthly specials one line text links one time offers rotate banner ads text ads subscription forms one time offers on any server error page(s) exit pages entry pages pop ups pop unders logout pages login pages thank you pages verification pages And another type of advertising or web page not mentioned. LOL What if you could combine any number of the above on any number of web pages and Domains you own. Just as simple as adding one line of code to your existing or new web pages! PLUS store an unlimited amount of data to dynamically create an unlimited number of web pages. Again all from this one handy little Admin Area. "You Are 5 Minutes Away From Making A Dramatic Change To Bring You and Your Online Business Into The 22nd Century" Tags: mrr
