The tabs make it easy for you to go back and forth to edit anything. Create scratch cards of any dimensions. You have full flexibility and control over the card size. Customize your scratch card background. It can be an image or a colored background (one color or gradient). Brand the scratch cards with your logo. Add your logo in one of 6 different positions in the background. Add text to your scratch card and format it as you like (color, font, and size). Convert your favorite images to scratch areas! A scratch card can have any of the following under the scratch area: (1) Text, (2) image or (3) blank/white area. 1. Text: Format it as you like; color, font, size, etc. You can also add a link to the text. The link would open in a new window. 2. Image: Add title above/below the image. You can add a link the title or image. The link would open in a new window. Drag and drop scratch areas and text elements wherever you want on the card. You can change their positions easily with your mouse. Choose how many cards you would like to generate and set the number of winning cards. The generation will be done on the fly.
