

Swoopo Clone 2010

[DOWNLOAD HERE](#)

Swoopo clone is a scalable & fully-featured application that lets you create the ultimate profitable online penny auction website. Manage your entire online auction operation: create new auctions within seconds, set up an auto bidder so your products sell for the price you want, add new pages using the built-in CMS (Content Management System), and much more! Product features : Bidding in the Swoopo-style format. Paying per bid and the price increasing by a set amount. The time increasing by x number of seconds (you can change this time in the CMS) every time a bid is placed. The ability for members to login, update their account, purchase more bids and pay for their won auctions. Add, edit, delete auctions. View the winning bidder and update the status of the auction e.g. pending, running, ended and completed. View users bidding history, purchased bid packages, add free bids to the user and refund bids for the user. Manage the entire website content anywhere in the world with an internet connection! Manage the website categories, add, edit and delete new categories, which can be unlimited levels deep. Edit general website settings including turning on and off various features at a click of a button. Advanced Features Paying per bid and the price increasing by a set amount. The time increasing by 10 seconds (you can change this time in the CMS) every time a bid is placed. General pages such as terms and conditions and a help section which you can edit. Add your own pages at free will. The ability for members to login, update their account, purchase more bids and pay for their won auctions. Paypal as the payment gateway by default. Fixed price auctions and variable priced auctions are also available. Ability to give users free bids. Ability for users to receive free bids for registering, for winning their first auction and for buying bid packages for the first time. Add, edit and delete articles for the latest news page. Refund bids. View the winning bidder and update the status of the auction e.g. pending, running, ended and completed. View, edit, add, delete and suspend users. View users bidding history, purchased bid packages, add free bids to the user and refund bids for the user. Manage the entire website content such as the terms & conditions and help page content. View referrals from users. Set the bidding packages. Update the latest news articles and add new articles. Manage the website categories, add, edit and delete new categories, which can be unlimited levels deep. Edit general website settings including turning on and off various

features at a click of a button. Payment system PayPal (included) Limits on the number of auctions a user can win in a month.
