Tweak Coding Guress Reveals Secrets On How Exactly A Non-Coder Can Spit Out PHP Web Applications Everyday! Lady Marketer Kim Enders Proves That You Dont Have To Be A Full-Blown Programmer To Easily Create High-Quality PHP Web Applications Dear Aspiring PHP Script Creator, Have you ever felt yourself struggling to get through encyclopedia-thick manuals on PHP and programming in general? Its frustrating, isnt it? There is a better way. If youve tried time and time again to figure out programming but have been less than successful, still there is a way you too can create scripts of your own. Many self-made online marketers, past and present, have been known to tweak the code of their web scripts to fit it into their sites better. Tweak coding, on the other hand, takes it a lot farther! Personally, I didnt start out coding like a pro. Progressively, though, despite various obstacles, it started coming to me. Just like a puzzle, the pieces began to fall into place. Its the same puzzle you very likely are trying to put together. True Confessions of a Tweak Coder reveals that puzzle, piece by piece. You dont have to read very far to see that the Ebook will demystify the entire process! If you can learn HTML, then you can create web scripts. Youll learn the same steps I use to create my own web scripts eproducts. Youll learn the method that enables me to take a barebones snippet of code or script and transform it into a highly-regarded product. You dont need to struggle with the same things I struggled with. Youll read about these struggles and about how I transcended them. How does this relate to you? You can learn from my mistakes and move on to the very steps that will help you on your way. Whether youre code-illiterate, lacking in confidence, bombarded with ideas, or simply dont know where to start, this Ebook will provide you with the closest thing to a non-coder blueprint that there is!
