How to choose the right keywords. This ebook shows you how to choose the right keywords, the tools to use and how to use them. What are Keywords? When a person uses a search engine they type in a word or more likely a phrase about their problem or what topic they want information about. These are keywords or keyword phrases. These words or phrases (keywords) are what you need to know so that you can design your website to target these thereby capturing some of this search engine traffic. The more targeted your website is to what people are searching for the more likely you are to generate sales. "How To Choose The Right Keywords" comes with full MRR. When unzipped the file is a PDF file.
