

# Html Ajax Content Box W/ Refresh Button - Addon Code Script

[DOWNLOAD HERE](#)

If you all ready have or want some content on your website inside an info box with a refresh button this addon code script might be the one for you. It uses, Html, Css, Ajax and JQuery! Has been tested and does work on all major browser versions, IE 5 +, Firefox, Safari, Opera and others. You can instantly download this addon code script and start integrating it into your own website or even just start playing around with it. Comes With Resellable Resell Rights, Yes you can resell it you just cannot resell it here on tradebit or for less than the price you paid. Someone recently said to me isn't this script useless and they wanted an example of something that this type of script would be perfect to use for... My Answer was - Its definitely not useless and it could be used for something like Building a Php or Javascript Slot Machine With :) Think big!!! the skys the limit i told him!!! Hope that refreshed his memory LoL. We'll if you get a chance to purchase and download this script we hope it becomes very useful for whatever you might be using it for.
