

Sigismund Bacstroms Alchemical Anthology - An Essay On Alchemy - Unknown

The writings of these Philosophers, as they call themselves, and many of them were well entitled to that appellation, are for the greater part, indeed we may say all of them, written with studied ambiguity, to conceal the art, a disclosure of which, they were persuaded, could not fail to prove prejudicial to mankind, though eventually it would be far otherwise. The following extracts selected from numerous authors, contain a full elucidation of the hidden art on which so many thousand volumes have been written. Please Note: This book has been reformatted to be easy to read in true text, not scanned images that can sometimes be difficult to decipher. The Microsoft eBook has a contents page linked to the chapter headings for easy navigation. The Adobe eBook has bookmarks at chapter headings and is printable up to two full copies per year. Both versions are text searchable.
