Here Are Just Some of the Many Features This Amazing Program Boasts: Ability to capture any portion of the screen Work with multiple images at once Apply professional photo retouching effects to your snapshots Adding images and text to your snapshots Resizing snapshots using up to 7 advanced filters Configurable, system-wide hotkeys for most common

actions Save snapshots to multiple image formats Capture a mouse-defined region of the desktop Capture desktop objects like menus, windows, list boxes, edit fields, etc. Directly print snapshots Easily create slideshows by using the autocapture feature Autohide the program on capture Beep whenever capture starts and whenever finishes Undo last operation support Windows XP look-alike interface, even on non-XP systems Complete help manual Heres How This Powerful Program Works: Simply download and open SnapVideoPro. Then start another software program (can be a word processor program such as Microsoft Word, or any other software program). Now heres how to capture the contents of the other program window inside SnapVideoPro. The first step is to choose the desired capture option. Go to the File menu and choose Active Window from the menu. Next, go to the other software program (make it the active program in Windows, by choosing it in the taskbar or by pressing Alt+Tab until the program becomes visible). Now simply press Alt+F12. Wow! Yes, indeed, SnapVideoPro reacts to this keypress and offers you a preview of the snapshot! You may now accept this snapshot or cancel it. To accept the capture, press the Accept button that appears in the preview window. Once this button is pressed, you will see the snapshot appear in SnapVideoPro in a new window. Congratulations! Its that simple, you are now ready to start using the advanced features of SnapVideoPro!
