Until now, a lot of internet marketers (including me) have been at a loss on how to run Joint Ventures simply because we did not have the right tools to do so. We had to combine so many expensive scripts spending hundreds or even thousands of dollars, and even then, these did not adequately meet our needs. Whether Your Joint Venture Involves Selling Time-Limited Products, One-Time Offers, FireSales or Just Signups You can now automate your entire JV with JV FireSale Automator... -----

[your-name-here] Sunday, April 22, 2007 A lot of Internet Marketers remain trapped in a locked safe - they'd like to make more money by running Joint Ventures with other marketers. However... the only reason they remain trapped is because all they know are locked doors... I used to be guilty of the same thing: I was so convinced that all the doors of opportunity were locked, I gave up even trying to open them. Since that time, I have run a LOT of very successful time-limited offers. If anyone could have told me I could bank thousands of dollars in just 24 hours, I'd have called them crazy or worse! But even then, I realized I still had one BIG limitation - I had to BABY-SIT all my special offers from the first to the last day. Sometimes I'd forget to send a crucial message to my prospects at the right time. Sometimes I simply sent the wrong message. Or a message with no subject line. Most of the times I was going crazy trying to remember to upload special offer pages at the right time (I missed a lot of them) amidst all the crazy flow of email messages and support requests resulting from all my clumsiness. And I lost thousands and thousands of dollars in potential profits as a result JV FireSale Automator has now provided the key for you to unlock yourself from the confines of your untapped earning potential And

make you lots of money as you team up with your peers It's been proven many, many times over.
