Ebook: How To Create A Website In 5 Days

[DOWNLOAD HERE](#)

How To Overcome The "Techno Babble" and Become A Web Master... In Just 5 Days! Okay, you've mastered surfing and you've probably got email pretty much figured out. So, what's next? If you're reading this, then you probably would like to learn how to build your own website. Chances are pretty good that you've read some of the "geek speak" out there and it's left you petrified! We are here to take away the "mystique" and give you exactly what you need to build your first website. And we'll do it without all that "techno stuff" that has you shaking in your boots. Don't misunderstand. Some techno stuff is necessary and important to learn. But, it doesn't require you to be one step down from a phd in rocket science. How do you do that? It's simple. By combining site and sound as audio and visual aids, you are able to create a virtual "show and tell" classroom for yourself by following the simple instructions. Blending the written, audio and visual words creates a much more comprehensive environment conducive to learning how all this "web stuff" comes together. Using these techniques increases your ability to learn and absorb much quicker than simply reading pages. Here is some of the criteria that is covered in the material: * The #1 Design Rule * Learning about the browser * Exploring the tools of the trade * Selecting a domain name * How to obtain hosting * Linking to the host * Strategic planning * Selecting a layout * Who is your target * Color selection * When to use graphics * How to use graphics * Learning graphic formats * Defining links and much more Compared to the alternative of hiring a web designer, this is the most comprehensive and inexpensive alternative you will find online. The easy to read, see and hear tutorial is one of the best resources available online. What are you waiting for? Grab your copy today and have your own website operational in just 5 days! You'll be glad you did.
