Down Count Script

[DOWNLOAD HERE](#)

Down Count Script Ever wonder how many times people are downloading your files? Wonder no more, install DownCount! With DownCount, you add files to the script's (text based) database, then direct your visitors to download the files through the included download.php script. Optionally require visitors to enter their name and email address in order to download a file - this information will be saved so that you can use it later. Then, load the stats script to see how many times your files have been downloaded. It's that simple! FEATURES Count the number of times each file on your site is downloaded Easy setup and use Add files to the database through a web form Template based, easy to fit into your existing website design SUPER BONUS: Order now and receive MASTER Resell Rights so you can sell Down Count Script and keep 100 $$$ of the profits! You'll even get a copy of this sales page which you can easily customize!
