Why Let Over 95 Of Your Visitors Leave Your Site Without Spending A Single Dime... Lets cut straight to the chase and get down to the nitty gritty... This dynamic popup is served up only when a visitor hits the back button, hits the refresh button or tries to close the browser window. You no longer have to deal with worrying that your exit popup will show up any time except when someone tries to exit. Now, besides the fact that your pop-ups cant be blocked, here is another very cool feature. When your popup is activated it will show over either the same page your visitor is currently on like any other popup or... You can have a brand new page dynamically appear in place of the one they were on right behind your popup. In the world of Internet Marketing there are a small handful of pros using ALL of the steps necessary to get the maximum impact from their efforts. These are the multi-millionaires everyone else wants to become. Its not good enough to slap up a sales letter and then sit back, happy to sell to 1-3 out of every hundred visitors you manage to get your site. To achieve the level of success you want market to your prospects as completely as possible which means taking the extra steps that most folks out there arent bothering to do. Match the message to the prospect and your level of success can go through the roof.
